Mr. Linn, I saw James W. Davis
and he said that we are released
from that suit
and I think we have a chance of selling
to a party here now I would suggest
that we ask three thousand dollars for it
and you write me and say to me that
you will take fifteen hundred dollars
for your own half in the track
and describe it as best you can say
how many acres in the track say whether
it is good for grass or not
when you write me write as though
you had not heard from me for some
time I write want to use your letter
for reference to include the part to go
and look at the land
answered at once
as ever R. H. Maxwell
